Forecast for Friday 08 Oct 2021

Weather: A rather cloudy night and start to Friday with the chance of some patchy light rain or drizzle, mainly confined across western peaks such as Black Mountain. Cloud lifting and breaking from the south through the morning with all staying dry with sunny spells for the afternoon. Remaining dry and clear for the evening.

Chance of cloud free mountain/hill tops above 600m: 40% becoming 95%+ from late morning.

Visibility: Good or very good, becoming moderate or poor in any early rain and drizzle, also very poor in hill fog with bases initially from 600m, broken to extensive in west and scattered in east, before lifting and breaking through the morning.
